

SPACE COMMUNICATIONS AND NAVIGATION PROGRAM

PRESENTED TO

Brian K. Ramsay

With our deepest gratitude, the NASA community is thankful for your friendship and dedicated professional support over many years to protect the radio spectrum that Global Positioning System users worldwide have come to rely on. You have been and always will be in our hearts as part of the National PNT Advisory Board established to help serve millions of users around the world. You have made a positive difference to all you have touched, and we will remember.
