

Homeland Security GIS Open House

Date/Time: 9AM-4PM on Friday, November 16, 2012

Location: USDA Whitten Bldg, 12th St. and Jefferson Dr, Washington DC

(walking distance from the Smithsonian Metro Station at 12th St. and Independence Ave.)

For Additional Questions Please Contact: DHS GMO at gmo@dhs.gov or 202-447-3728

The DHS GMO and USDA EGMO are partnering to host the Homeland Security GIS Open House. The goals of this event are to showcase enterprise class geospatial capabilities and collaboration across the Homeland Security Community. This Open House will include exhibits from across DHS and its partners. It will also involve interactive breakout sessions focused on core issues/topics within the Homeland Security Geospatial Community. Topics to be discussed are: Coordinating Structures, Decision Support, Remote Sensing, and Emerging Technologies.

This event will be an opportunity to learn more about how geospatial capabilities support the Homeland Security mission. It will provide participants a venue for showcasing geospatial program activities with senior executives, fellow practitioners, and knowledge exchange with interagency partners.
